

# StoColor System 2022

## StoColor System 2022

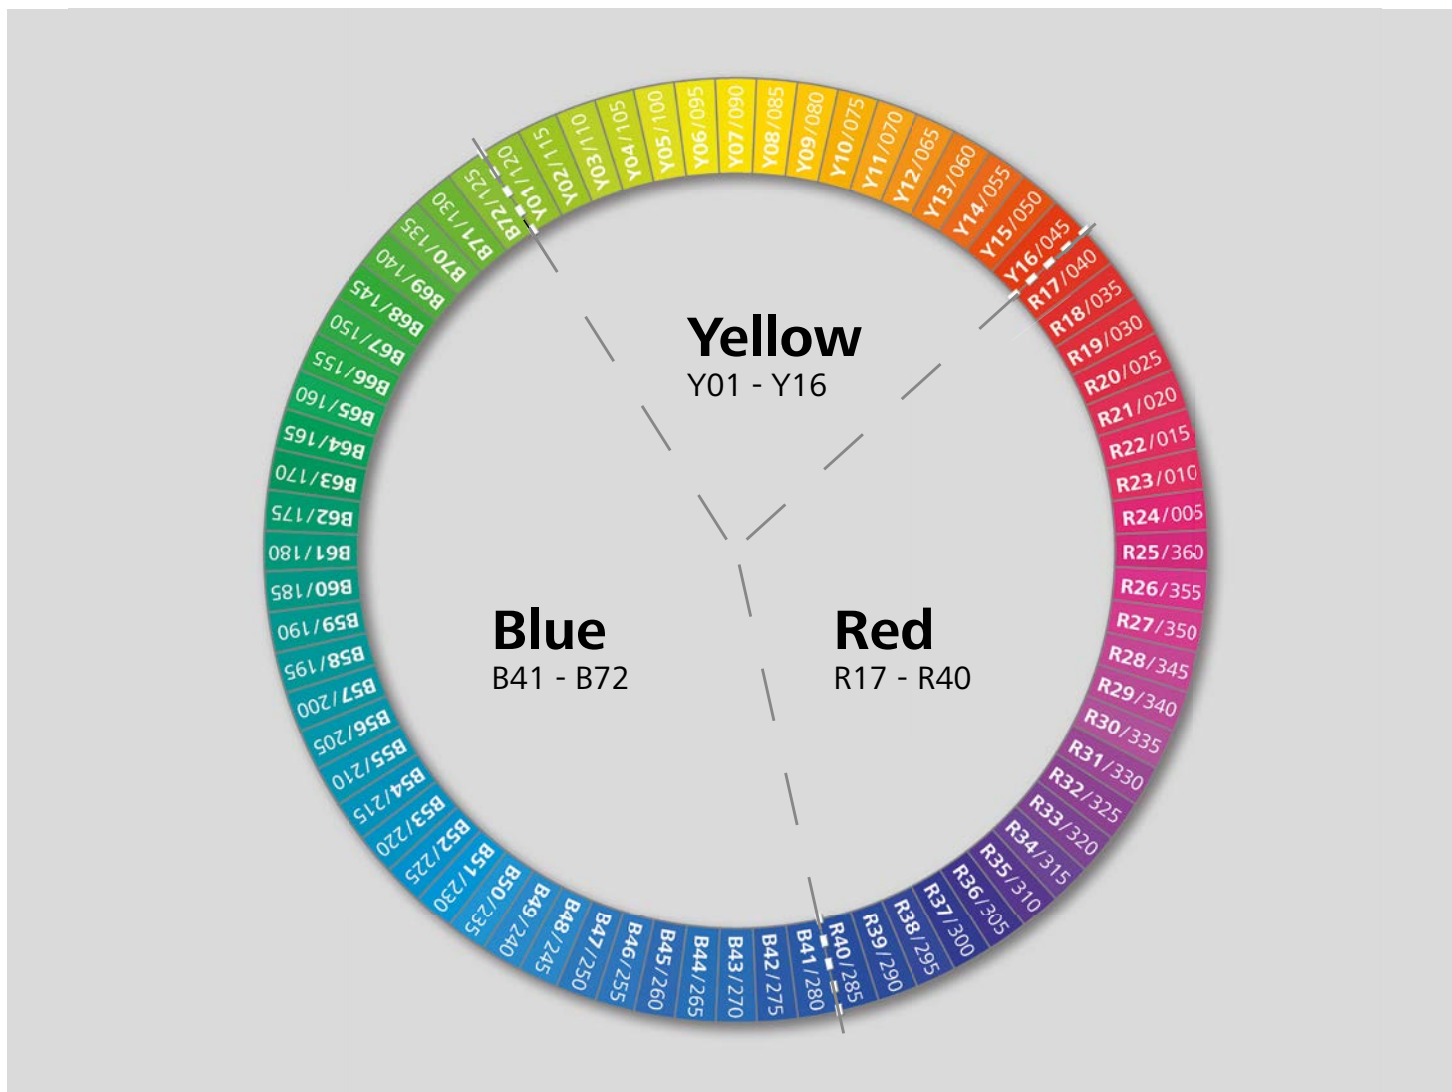

Le nouveau système StoColor s'inscrit dans un espace colorimétrique contenant 1000 nuances de couleurs qui peuvent être utilisées dans la conception des bâtiments.

Le système est basé sur 72 niveaux chromatiques (Y01-B72) répartis sur le cercle selon les couleurs primaires **JAUNE (Y)**, **ROUGE (R)** et **BLEU (B)**. Chacun de ces niveaux chromatiques permet des dégradés de teintes spécifiques, complétés par la gamme des couleurs **NEUTRES et Naturel (N)** composée de dégradés de noir, de gris et de blanc.

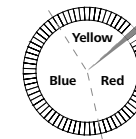

En plus, 65 nuances de couleurs historiquement reconnues ou propres à un matériau ont été intégrées et nommées.

Vous trouverez plus d'informations et d'explications sur le système en ligne sur :  
[www.sto.de/stocolorsystem](http://www.sto.de/stocolorsystem)

# StoColor System 2022

## Légende

**Y01 70 50**

Teinte n°

■ 57

Valeur de luminosité (VL)

C3

Classe de teinte

Définition du supplément lié à la teinte - voir les tarifs

Lotusan® / StoColor Lotusan  
Sto Color Silco

La teinte est possible.

Sto-Peintures silicate

StoLotusan K/MP  
Sto-enduits silicate

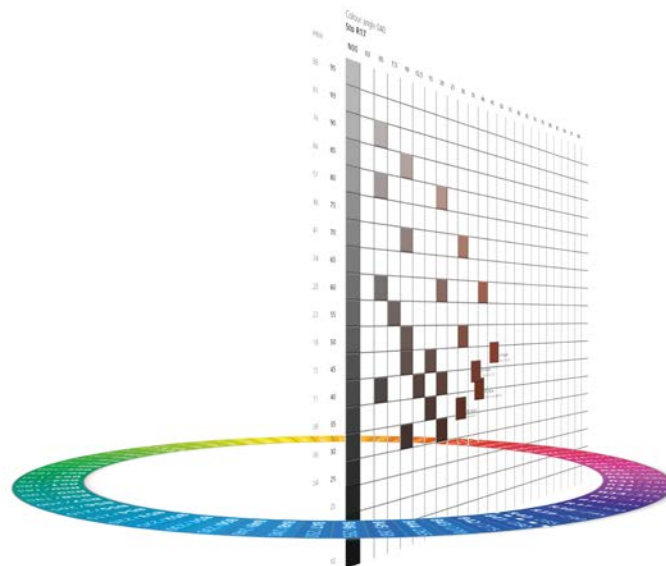

Valeur de luminosité pas en dessous de 30

La teinte est possible.

**Xb25/Xb30**

Disponible pour les produits teintés en X-black Technology avec une valeur IRS (indice de réflectance solaire Total) supérieure à 25 ou 30.

Toutes les teintes du système sont possibles en revêtement de façade, par ex. en StoColor Dryonic®.

Les 72 gammes de couleurs contiennent chacune 6 à 30 teintes.

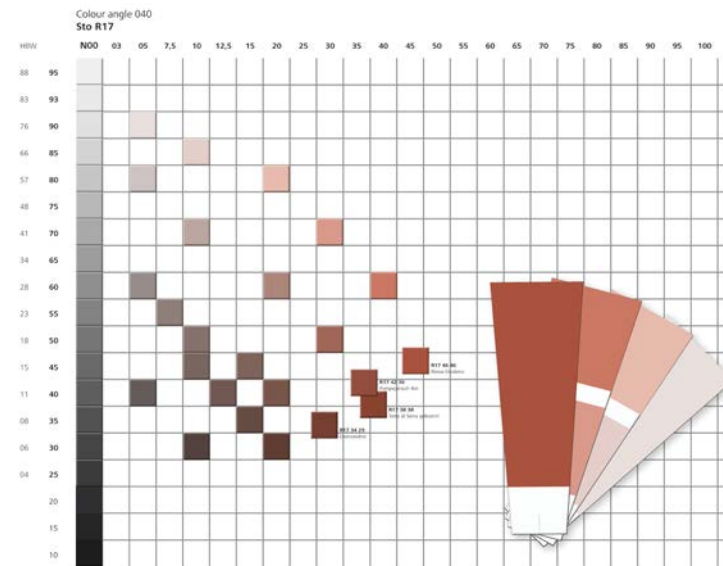

## La codification des différentes teintes

**Ex. : Y01 70 50**

Y01 = position dans le cercle chromatique

70 = luminosité selon CIELAB

50 = intensité chromatique selon CIELAB-HLC

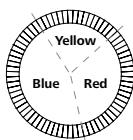

Des couleurs historiques sont intégrées et identifiées - par ex.

**R17 38 38** Terre de Sienne brûlée

## Remarque

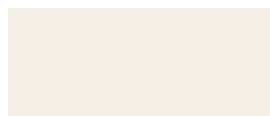

En raison des réalités techniques (modèle de l'écran, réglages de l'écran, etc.), les couleurs peuvent, le cas échéant, légèrement différer de l'original. De légères différences de teintes par rapport à la teinte originale peuvent également être observées pour des raisons de matériau ou d'impression. En cas de nouvelle commande de la même teinte, veuillez toujours indiquer le numéro de la commande précédente. Veuillez noter que, de par la nature et la texture du support, et du fait de la structure des différents revêtements, des dérives de teintes sont possibles et les couleurs peuvent s'altérer dans le temps.

Toute revendication pour différences de teintes dues aux facteurs mentionnés précédemment est exclue. Les instructions de mise en œuvre/fiches techniques doivent être respectées et peuvent être demandées auprès des filiales Sto du pays concerné.
